

Repaired Watch Breakout Worksheet

To the Shipper:

Please provide the following data so that proper duty amounts can be calculated and assessed on only the value of the repairs on the watch or watches being returned to the US. Please provide the original replacement value of each component of the watch in column A. Column B, please note the repair cost associated with that component. In column C, provide the total value of columns A & B. Column D, note the total number of watch components this covers (if more than one involved). In column E, please provide the totals for all components including the repair costs.

A	B	C	D	E
Price/Unit	Cost of Repairs Performed	Total Unit Value after Repairs	Total # of Units (if more than one)	Extended Totals
